

WiggleWaggle™

FLAGS AND BALLOONS

Oh no! These balloons have lost their colour. Colour them to match their strings?

We need:

- 2 red
- 1 green
- 3 blue
- 2 yellow

Flag Lotto. Print this twice!

Find some coins, matchsticks or other counters (9 in total). Pieces of torn paper work too.

Cut around:

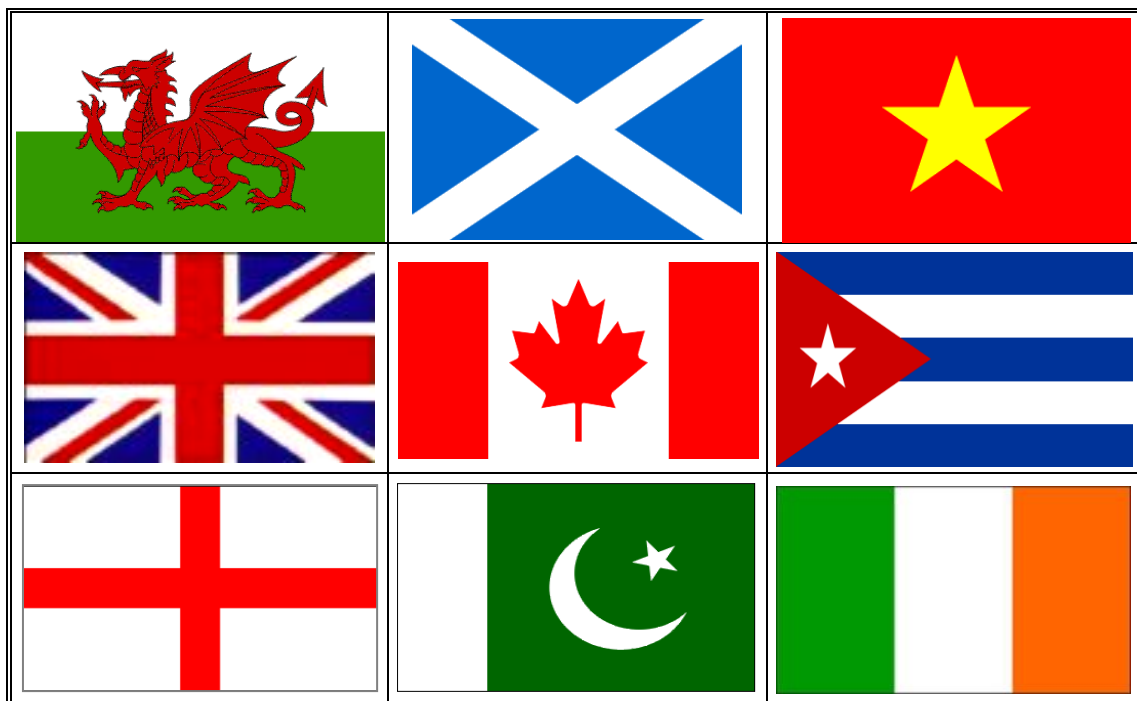

1. The lotto board
2. The small individual flags

Place the little flags into a container.

Take it in turns to draw out each flag, say its name and show it to the player.

Each player should cover the correct flag with a counter. If they already have that flag – it goes back into the bag.

After a few plays, an older player may try to guess each flag - just from its name. Call LOTTO when all the flags are covered.
